Movestic Korta Röntor Plus is a sub-fund of Movestic SICAV

Movestic SICAV - Movestic Korta Röntor Plus M (SEK)
ISIN Code: LU1223426039

Movestic Fund Management S.A.

Administered by Movestic Fund Management S.A. Movestic Fund Management S.A. is a company within the Movestic Group.

OBJECTIVES & INVESTMENT POLICY

Objective

The Sub-fund's principal investment objective is as a part of a longer term strategy to generate an attractive capital appreciation in SEK.

Investment Focus

The Sub-fund seeks to achieve its objective by investing its total net assets mainly directly in transferable fixed and / or variable income securities as well as money market securities issued globally and, denominated in SEK as well as other currencies of OECD member states and prevalently having a modified duration (calculated to final maturity) of 1 to 3 years with respect to overall portfolio, whereby 90% of the assets must have a final maturity of shorter than 5 years, and all positions must have a final maturity shorter than 8 years. Investments in shares / units of UCITS and/or other UCIs (including exchange traded funds (ETFs) are limited to 10% of the Sub-fund's total net assets. The Fund may invest up to 10% of the Fund's net assets in mortgage backed securities and asset backed securities with a rating spectrum from investment grade to sub-investment grade. In addition the Sub-fund may invest in money market instruments and other financial

instruments, such as certificates. For efficient portfolio management and/or hedging purposes, the Sub-fund may use OTC- derivatives, techniques and instruments.

The Shares in the Sub-fund will principally accumulate any income.

Shareholders may request the redemption of shares through the management company, custodian bank or paying agents at any time. The management company will be required to redeem shares for the account of the Fund at the applicable redemption price on any dealing day. The dealing day is defined as every day on which banks and stock exchanges are open for business in Luxembourg. The management company is entitled to temporarily suspend the calculation of the value of shares if this is in the best interests of the shareholders and for so long as circumstances persist that require such temporary suspension. A typical investor should take into consideration that the Sub-fund portfolio has a medium volatility. Investment in the Sub-fund might entail a medium risk and is only appropriate for persons who can accept the possibility of capital losses. The Sub-fund is designed for investment only by those investors, who understand the degree of risks involved and believe that the investment is suitable based upon their investment objectives and financial needs. The time horizon for a typical investor should be more than 3 years.

RISK AND REWARD PROFILE

Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may change over time. Even the lowest category does not mean 'risk free'. The Sub-fund has been categorized SRRI 2 because its net asset value shows low volatility leading to adequate probabilities for losses as well as gains.

What does this risk and reward indicator mean?

- The risk category for this Sub-Fund was calculated using simulated historical data. The risk category may not be a reliable indicator of the Sub-Fund's future risk profile. The risk category shown is not guaranteed and may change over time.
- The seven-category scale is complex, for example 2 is not twice as risky as 1. The gap between 1 and 2 might not be the same as the gap between 5 and 6. A category 1 sub-

fund is not a risk-free investment – the risk of losing your money is small, but the chance of making gains is also limited.

Which materially relevant risks are not adequately captured by the synthetic risk and reward indicator?

- Liquidity risk: low liquidity might result in that it would be difficult or impossible to buy or sell an investment in a timely manner and that the price could be lower or higher than expected.
- Counterparty risk: the risk that a counterpart does not fulfill its obligation to the sub-fund (e.g. not paying an agreed amount or not delivering securities as agreed).
- Currency risk: the Sub-Fund may hold some of its investments in currencies other than the Sub-Fund's reference currency. Thus the value of the Sub-Fund may rise and fall due to currency movements.
- Operational risk: the risk of loss resulting from e.g. system breakdowns, human errors or from external events.

Additional information concerning the risks of investment is indicated in the corresponding sections of the prospectus of the fund.
